

Institute on AI, Pedagogy, and the Curriculum Action Plan Template

Action Plan Instructions

Outline the components for successful integration of AI into the curriculum as well as into teaching and learning practice within your context. These components should typically include: (a) a timeline for next steps; (b) relevant stakeholders, audience members, and decision-makers essential for discussion and capacity-building; and (c) potential obstacles. Each component has multiple dimensions. For example, next steps may pertain to curricular, co-curricular, pedagogical, faculty support, or administrative processes. Capacity-building may include dissemination strategies for sharing plans, assessment/institutional data, and best practices. Obstacles may include resources, institutional reward structures (i.e., promotion and tenure considerations), and communication strategies.

For the kick-off, we ask that you focus on planning for strategies and activities you will implement during the fall semester. Include the following question in your thinking: **As you seek to expand AI adoption on your campus, how do your team members and the offices/departments they represent work together to contribute to this work.** For the fall, we recommend that your team include plans for at least one collaborative project/effort supporting AI adoption.

Future Institute events will focus specifically on planning for the spring semester (and beyond!) as well as scaling efforts; however, the template below provides opportunities to think beyond the fall semester. With that said, we encourage you to focus on immediate steps you will take as the fall semester progresses.

Please upload your Action Plan to this link:

<https://aacu.app.box.com/f/96733378b4e74ab2aa910403acd0b6f3> by the close of business on **Friday, October 2nd**. Please follow the naming convention of “[Institution Name] Action Plan” for the file.

Please Note: This template is offered to help you shape your campus action plan. It is not meant to be prescriptive and should be adapted to your specific project goals and institutional context.

Action Plan Presentations

Each team will share its action plan with other campus teams at the end of the Institute Kick-off on Friday, September 11th. Presentations are intended to be brief (5 minutes, followed by 5 minutes for questions). You may involve all or multiple team members in the presentation. To save time, we encourage presentations without PowerPoint or PowerPoint utilizing a single slide.
